

IV → Visual Aids

Pictures - An Economics teacher can get them from different newspapers, books, journals etc and can make educational use of them. While using them a teacher should keep the following points:-

- ① Pictures should be related to topic.
- ② They should be attractive and effective.
- ③ They should be correct and real.
- ④ Picture should be self explanatory.
- ⑤ Picture should be simple.
- ⑥ They should be presented with same objective in mind.
- ⑦ Their size should be adequate to the whole class.
- ⑧ They should be based on reality.
- ⑨ They should not be hurtful to anyone's sentiments.

(10) They should be related to the objectives

Charts and graphs :-

They are quite inexpensive and useful for teachers, because they can be made on paper by hand. While using them a teacher should bear the following points :-

1. Charts and graphs should be accurate.
2. They should be related to the topic.
3. Their presentation should match with their objectives.
4. Their size should be adequate to the class size.
5. Their scale should be predetermined.
