

Safety Measures in Schools to prevent gender discrimination: —

The following practices may address the safety in school to prevent gender discrimination: —

- ① Classroom disciplines of students.
- ② Protocol measures to the use of computers and cell phones.
- ③ Periodical training and motivational talks of experts.
- ④ Monitoring committees / complaint cells.
- ⑤ Timely redressal of grievances of affected students.
- ⑥ Teacher students interaction beyond the classroom and active engagement in games and extra curricular activities.

- (7) Story telling with examples.
- (8) Special attention and care to the deprived sections.
- (9) Motivations of talents
- (10) Parent teacher meetings.
- (11) Design of safety plans in schools.
- (12) Developing consciousness on environmental concerns and motivating students to work on the environmental concern activities.

The level of literacy of Parents is not good for their children. At home level, every parent must aware of the children behavioural changes and timely consultation with experts and seeking remedies.
