ABOUT THE WEBINAR

Since we know that due to an intrusion of COVID-19 our life events have been affected significantly. Taking into consideration of pandemic pressure Department of Psychology took initiative to organize this national webinar on ***IMPACT OF COVID-19 ON CHILDREN: SPECIAL FOCUS ON PSYCHOSOCIAL ASPECT & IT'S MANAGEMENT***. COVID-19 outbreak has affected millions globally. Although medical literature shows that children are minimally susceptible to 2019-Corona virus disease (COVID-19), they are hit the hardest by psychosocial impact of this pandemic. Being quarantined in homes and institutions may impose greater psychological burden than the physical sufferings caused by the virus. School closure, lack of outdoor activity, aberrant dietary and sleeping habits are likely to disrupt children's usual lifestyle and can potentially promote monotony, distress, impatience, annoyance and varied neuropsychiatric manifestations. Incidences of domestic violence, child abuse, adulterated online contents are on the rise. Children of single parent and frontline workers suffer unique problems. The children from marginalized communities are particularly susceptible to the infection and may suffer from extended ill-consequences of this pandemic, such as child labor, child trafficking, child marriage, sexual exploitation and death etc. Parents, pediatricians, psychologists, social workers, hospital authorities, government and non-governmental organizations have important roles to play to mitigate the psychosocial ill-effects of COVID-19 on children and adolescents. To provide the basic amenities, social security, medical care, and to minimize the educational inequities among the children of the different strata of the society are foremost priorities. In this webinar eminent speakers will share their expertise to deal with the psychosocial impact of COVID 19 on children.

Historical Background

Situated on the tropic of cancer, at an altitude of 651m from sea level amidst tropical flora and fauna, Ranchi College, Ranchi (now upgraded as a Unitary State University and known as Dr. Shyama Prasad Mukherjee University, Ranchi) had been established during the Pre- Independent India. Established in 1926 as a Government Intermediate College, it marched ahead and began Under-Graduate and post-graduate Courses in various subjects of Arts/Science in the year 1946.
