World Biodiversity Day 2020

Dear students,

Biological diversity or biodiversity is the variety of life on Mother Earth. It refers not just to species but also to ecosystem and differences in genes within a single species. Everywhere on the planet, species live together and depend on one another. Every living thing, including man, is involved in these complex networks of interdependent relationships, which are called ecosystems. Biodiversity is the key indicator of the health of an Ecosystem.

Dr. Shyama Prasad Mukherjee University, Ranchi is conducting an online Intra-University Quiz on awareness of our Biodiversity. Kindly go through the form given below <https://forms.gle/6aAgWeiQk76QsvQU9> to submit your answers. On successful completion with 90% and above will be provided with e-certificate.
